Profile

Back-end developer eager to learn to build new technologies. I want to find new ways technology can improve my community and support others to achieve success. In this industry growing as a developer and as a young adult is very important to me. I'm a hard worker and I'm passionate in what I do. Making applications that everyone can enjoy and use is something that I want to happen with what I put out to production.

Skills

Languages/Frameworks: Ruby on Rails, Python, JavaScript, SQL, FastApi, HTML, CSS

Tools: ActiveRecord, PostgreSQL, RSpec, Git, Minitest, Unittest, GraphQL, Heroku, TravisCI

Methodologies: Git Workflow, Microservices, Agile Development, TDD/BDD

08/2017 – 12/2019 New Port Richey, United States	**Arts & Sciences | Associates Degree** **Pasco Hernando State College**

References

727-688-1904	**Miguel Silva (Sr. Software Engineer)** **Business Alliance Financial Services** Kevin Cuadros is a hard worker and fast learner. He picks up new technologies fairly quick and also responds to feedback better than any mentee I have had. Very good testing habits and always pushes for great coverage on his projects by taking ownership of any new challenge.
