Technical Projects

Craft Circle Group Project | Fourteen Day Sprint

[GitHub Repo](#) | [Deploy Link](#)

An online community where crafters can trade and contribute supplies in an effort to make creativity more accessible.

- Self- teach and implement a new technology (GraphQL), including the successful testing of network requests.
- Calibrate and implement continuous integration using Circle CI.
- Collaborate on a cross functional team to design, build and deploy the application, implementing agile methodologies.
- **Technologies:** React, Styled Components, Cypress, Circle CI, GraphQL

Art Access Solo Project | Five Day Sprint

[GitHub Repo](#) | [Deploy Link](#)

An application that expands the reach of art beyond museum walls, creating a more accessible space in which users can browse and learn about works. The user has their own personal collection where they can save their favorite works.

- Successfully implement Cypress to test all user flows and network requests including both happy and sad paths.
- Construct an application using React that allows the user to view and manipulate data fetched from MoMA API.
- **Technologies:** React, Router, Cypress, Fetch

Brew Maps Group Project | Ten Day Sprint

[GitHub Repo](#)

An application that allows users to browse, search and select within a list of breweries. Once the user has selected a brewery, they're able to view its details and leave a review.

- Successfully self-teach and implement Typescript in a product within a given timeline.
- Create a self-constructed API using express to hold and update reviews.
- Construct and implement a robust E2E testing suite using Cypress.
- **Technologies:** React, Typescript, Express, Cypress, Fetch, Router

Professional Experience

Aesop Senior Consultant | Houston, TX & Denver, CO

Jun 2019- Jan 2022

- Opened two Tier 1 locations in remote markets, ensuring strong key performance initiatives were established, scaling business 20% beyond sales targets in the first quarter.
- Mentored a new team, training on product knowledge and operational standards while cultivating a workplace culture that is inclusive, safe and purposeful.

Warby Parker Sales Supervisor | Denver, CO

Sep 2020- May 2021

- Advocated for and supported a team of sales professionals and opticians, using metrics-based insights to ensure sales targets and performance initiatives were met without compromising the health, wellness and safety of the team.
- Successfully build meaningful connections, maintaining intentional rapport with returning patients and upholding a team-leading customer satisfaction score.

Nancy's Hustle Reservations Manager | Houston, TX

Jan 2018- Jun 2019

- Programmed an efficient booking system that balanced the needs of reservations, walk-ins and my team in a fast-paced, high volume restaurant.
- Generate reports demonstrating growth in business, identifying and communicating opportunities for growth with ownership and stakeholders.

Education

Turing School of Software & Design | Denver, CO

Completion Aug 2022

- Certificate of Completion, ACCET Accredited program | Student Leadership Committee

Houston Community College

University of Houston
