SKILLS

Tech Stack | Ruby/Ruby on Rails, Python/Django, PostgreSQL, RSpec testing, HTML/CSS, Bash
Tools | Heroku, Render, Git, CircleCi, Docker, Postman, Virtualbox VM, Debian, Github Actions, pgAdmin4
Concepts | Agile, OOP, SRP, DRY, TDD, Software Development Life Cycle (SDLC), APIs, ORM (ActiveRecord/Python), CRUD, REST, MVC/MVT

SUMMARY

As a professional software developer, I am deeply committed to promoting diversity and creativity in the workplace, and I actively advocate for mentorship in the broader tech industry. My enthusiasm for software development is rooted within 10+ years of experience in sales, customer service, and stage performance. Throughout my career, I've continued to build an ethos of integrating creativity, flexibility, and a growth mindset into my work, and has been integrated into my approach to tackling emerging technological challenges as a developer.

PROJECTS

Vocal Percussion | [BE](#) | Solo Project

Technologies Used: Ruby | Debian Linux | GitHub | Github Actions

- *Built a fully functional Beat Boxing program that utilizes a class-based approach to building and managing a Ruby linked list data structure. This program delivers user input via CLI to echo their arguments back audibly using the Linux text-to-speech package "espeak".*
- Designed a fully functioning, dynamic linked list class in Ruby following **SRP, DRY, and TDD best practices** within a Debian Linux development environment.
- Implemented CI pipeline using GitHub Actions, with **100% test coverage** in the development environment

Lynk-Up | [BE](#) | Group Project

Technologies Used: Python | Django | SQLite3 | GitHub | Render/PostgreSQL | pgAdmin4 | CircleCI

- *'Built the backend service for a social media event managing application, utilizing the Django REST Framework to perform CRUD functions for the [client-side application](#).*
- **Implemented CI solution with CircleCI** configuring Django build and test scripting and developed documentation strategy for package/dependency management.
- **Designed Relational Database Schema**, 1000+ records migrated in test and initially deployed to [Render](#) using SQLite3 database, later configuring and migrating to PostgreSQL DB for database management with pgAdmin4.

EDUCATION AND CERTIFICATIONS

Turing School of Software and Design

Backend Software Development Certificate, Denver, CO

2022 - 2023

- **1700 hours of programming experience** over a 7-month intensive ACCET-accredited software development program

Seminole State College of Florida

A.A. General Education, Longwood, FL - **3.4 GPA**

2013 - 2016

- Vocal Performance Major - **30+ concert performances** including both solo work and collaboration with both fellow students and professionals of various musical backgrounds.

WORK EXPERIENCE

Massage Envy | Technical Operations & Reception Associate | Missoula, MT August, 2023 - Present

- Consulting ways technology can improve daily workflow, implementing technical solutions and manually performing hardware upgrades
- **Recognized regionally** for excellence in sales meeting monthly sales quota with an **80% conversion rate**
- Engaged in 50+ Client Interactions daily, including:
 - o Facility Hardware Systems Maintenance (30%)
 - o Wellness Plan and Retail Product Sales (20%)
 - o Patient scheduling and customer service (35%)
 - o Customer-to Service-Provider Liaison (15%)

Alterra Mountain Co. | Resort Ambassador | Steamboat Springs, CO Winter Season, 2020-2021

| Gondola Joe's Barista | Steamboat Springs, CO Winter Season, 2019-2020

| Sheraton Hotel Ski Tech | Steamboat Springs, CO Winter Season, 2018-2019
