SUMMARY

As a former Operations Manager turned frontend software developer, I enjoy working collaboratively to problem solve and create applications that benefit the user. I want to program diverse products that are client-oriented.

SKILLS

Languages/Frameworks: JavaScript | React | HTML | CSS | SCSS | GraphQL | Knex | Express

Testing: Cypress | Mocha | Chai

Tools/Workflow: Git | GitHub | GH Pages | Heroku | GitHub Action CI | NPM | RestAPIs

UX/UI: Figma | Miro | Mobile-First Design

PROJECTS

Not Furgotten (Group Project)

[Repository](#) | [Deployed Link](#)

Tech Stack: React | SASS | GraphQL | Cypress

This application partners users that can no longer care for their pets with users that would like to adopt a pet.

- Worked with a team of Backend students to seamlessly execute a dynamic API with GraphQL.
- Integrated Cloudinary to store user's pet pictures to support the adoption process.

Fussy Foodie (Solo Project)

[Repository](#) | [Deployed Link](#)

Tech Stack: React | SASS | Node | Express | Cypress

This is a food/recipe application that allows users to browse and search recipe ideas for what to make for dinner.

- Utilized React Router to create a pleasant UX SPA experience.
- Achieved mobile responsiveness via grid and media query breakpoints.

Book Club (Group Project)

[Repository](#) | [Deployed Link](#)

Tech Stack: React | SASS | Node | PostgreSQL | Knex | Express

This application is a full-stack project that allows users to select, favorite or buy a book.

- Created a backend server that allows users to make API requests.
- Used Cypress to give full end to end testing confidence in our builds.

EXPERIENCE

Jenny Craig | Carlsbad, CA

06/2002 – 04/2012

Contact Center Manager and Subject Matter Expert

- Liaison between the technical team and the business to ensure a seamless transition for updates to systems and sales.
- Managed a team that tracked refunds, customer service issues, warehouse packaging and shipping challenges, sales performance, and BBB complaints.
- Maintained the Intranet to streamline communication, training, and updates for the core business.
- Discovered with new creative solutions, and operation systems for all business channels.

EDUCATION

Turing School of Software & Design | Denver, CO

10/2021 – 04/2022

- ACCET-accredited front-end software development program

Colorado University at Boulder | Boulder, CO

- Bachelor of Arts | Kinesiology | Colorado University at Boulder
