SUMMARY

I am a driven and ambitious first-generation American software developer with a proven track record in front-end software engineering. With over 9 years of experience in the customer service industry, I have honed my problem-solving skills and developed a strong ability to collaborate with teams to successfully manage projects and operations. Fluent in Spanish, I possess a valuable asset that allows me to effectively engage with diverse industries and expand my reach. Committed to delivering high-quality solutions and leveraging my diverse skill set to drive innovation in the field of software development.

SKILLS

- | | | | |
|--------------|------------------|----------------------|-----------------------|
| • JavaScript | • WebPack | • UX/UI | • Project planning |
| • HTML | • Fetch API | • Strategic Planning | • Business strategies |
