

Matt Garcia

(970) 213-8175 • matt@garcia.dev [Linkedin](#) | [GitHub](#)

Passionate software engineer with a lifelong fascination for Paleontology, now dedicated to creating innovative solutions through software development. Committed to continuous learning and growth, I bring a unique blend of scientific curiosity and technical expertise to drive impactful results.

SKILLS

- FE Engineering
- Javascript
- CSS3/SASS
- HTML5
- React
- Web Accessibility
- Adobe Premiere Pro
- User Story Creation
- Communication
- Mocha/Chai Testing
- React Testing
- Github

PROJECTS

Showcase

Technologies Included - React, Cypress (testing), network requests, CSS

Description: This Project was intended to show off what I learned about Reactjs (as well as async js, router and cypress) over the course of 5 weeks. I chose to go with a unique theme I thought would stand out, which is hunting dinosaurs. I also had to create my own API for this project, a link to that can be found below.

What's Cookin

Technologies Included - JavaScript, HTML, CSS, Mocha and Chai (TDD), and Fetch API.

Achievements: Team communication & management, Independent work/code study.

EXPERIENCE

JR. SOFTWARE ENGINEER Turing, Remote, CO	2023 to Current
SUPERVISOR Freddy's Frozen Custard and Steakburgers, Timnath, CO	2015 to 2019
Amazon Delivery Associate Fort Collins, CO	2019 to 2020
Server Red Robin, Fort Collins, CO	2021 to 2024

EDUCATION

Software Engineering | Turing: Accredited Engineering School, Remote
College | Colorado State University, Fort Collins, CO
