Portfolio

SKILLS

Languages/frameworks: JavaScript, HTML, CSS, Python
Testing: Javascript, Python, Cypress, React
Tools/Workflow: Github, Google Collab, Tableau

PROJECTS

OnWard, Group Project | 40+ Hours | Github Hyperlink |
Tech Stack: Javascript, HTML, CSS, Cypress,
React
Create a Web Application to query a remote server using a zip code to compute tax information. This
allows users to calculate their expected salary should they live in that zip code.
- Collaborated with another developer to create an application using JS, HTML, and CSS
- Implemented through testing using Cypress and the React Testing Library.

Great Schools & Zillow Trand Project, Group project | 20+ Hours | Collab Link |Tableau Link
Tech Stack: Python using Google Collab, Tableau
Python Project: In charge of Python programming & Data
- Use API from Great Schools and Zillow to develop graphs to see a correlation between housing costs
  per zipcpode, and school performance per zipcode.

Overlook API, Solo Project | 30+ hours | Github Link
Tech Stack: Javascript, HTML, CSS, Chai
Developed a web application that queries a local server for booking information.
- Use Fetch Api for GET and POST Request
- Build Js functions and Test file from scratch
- Incorporating the Project Manager's Feedback to improve project.

What's Cookin, Group Project | 40+ Hours | Github Hyperlink |
Tech Stack: Javascript, HTML, CSS,
Chai
Create a Web Application to query a Local server for Recipes
- Collaborated with a team of 4 developers to create an application using JS, HTML, and CSS
- Implemented test-driven development agile workflow to develop the project quickly.
