JOSEPH (JOE) FOGIATO | Software Engineer

Philadelphia, PA • joe.fogiato@gmail.com • (724)518-4814 • [LinkedIn](#) • [GitHub](#) • [Personal](#)

SKILLS

- Javascript
- HTML
- CSS
- React
- Test Driven Development
- Mocha
- Chai
- PostgreSQL
- Git
- GitHub
- GSM
- RESTful API's
- Express
- Node
- Knex
- Cypress

SOFTWARE PROJECTS

Do Something | Solo project | 25 hours | [Repo Link](#) | [Deployed Link](#)
Project Purpose: An application that provides ideas and activities for the user based on selected parameters.
Tech Stack: React, React Router, Cypress
- Created a SPA that utilized Router to provide a multi-page UX with full error handling and functionality.
- Implemented full E2E (End to End) testing for both happy and sad user paths.

Beam | Group Project | 20 hours | [Repo Hyperlink](#) | [Deployed Link](#)
Project Purpose: An application to track your feelings, journal about why you are feeling that way, and find helpful activities to balance your mood.
Tech Stack: React, Node, Express, Knex, PostgreSQL, Cypress, HTML, CSS
- Created a full stack application using Node.js and React including a PostgreSQL database.
- Worked collaboratively & asynchronously in an agile environment.

Overlook | Solo Project | 25 hours | [Repo Hyperlink](#) | [Deployed Link](#)
Project Purpose: An enterprise management software for the Grand Budapest Hotel.
Tech Stack: Javascript, HTML, CSS
- Built a fully functional front-end EMS application that utilizes an API to request and send data.
- Implemented thoughtful architecture, UX, and codebase.

PROFESSIONAL EXPERIENCE

Imperfect Foods | Business Analyst   JULY 2021 - NOVEMBER 2022
- Automated previously manual processes via Google Sheets formulas and macros to streamline workflow and free up bandwidth among the team.
- Built demand forecasting tools using prior sales data with a focus on reusability, documentation, and user experience.

MANNA | Logistics Manager   DECEMBER 2019 – APRIL 2021
- Managed a team of 10+ staff in varying roles to ensure accurate and timely daily delivery of medically tailored meals to 1,200+ clients in the Metropolitan Philadelphia Area and across the state of Pennsylvania.
- Created and managed a yearly departmental budget of $350k to ensure a balance of fiscal responsibility and capital investment.
