SKILLS

Object Oriented Programming
Ruby
Ruby on Rails
ActiveRecord
SQL
Heroku
TDD(RSpec)
HTML/CSS

SYSTEMS/PRACTICES

Git/Version Control
API Development
RESTful Architecture

EDUCATION

TURING SCHOOL OF SOFTWARE AND DESIGN | 2021

Education focused on OOP principles, data-based web applications, and data structures

WESTERN STATE COLLEGE | 2007 - 2011

Bachelor of Arts in Biology
Gunnison, CO

SUMMARY

Analytical problem solver with a goal-oriented mindset. I have a strong attention to detail and excellent communication skills. I am eager to contribute to team success through hard work and my passion for software development. Clear understanding of Ruby, CSS, HTML, and JSON. Exposure to JavaScript and Python. I am looking to join a mission driven company that fosters collaboration.

RAILS ENGINE

This is application is focused on building internal an API. Data is exposed using RESTful routes and serializers were used to customize JSON responses. ActiveRecord was used to compose queries to analyze data needed for server side responses. In addition to writing tests in RSpec, pre-written Postman tests were used to assist with development. This was a solo project.

Tech Stack: Ruby On Rails, PostgreSQL, RSpec, ActiveRecord, SQL, Postman

VIEWING PARTY

Viewing party is an application focused on consuming an external API. Users can register an account, friend other users registered with the app, and search movies. Users can search movies using a keyword search, and movies have a description, cast info, and reviews. A user can create a party to watch a specific movie and invite friends to watch on a specific date and time.

Tech Stack: Ruby On Rails, PostgreSQL, RSpec , Postman

LITTLE ETSY SHOP/BULK DISCOUNTS

This application has different functionality for admins and merchants. Merchants can view their invoices and item sales, whereas admins can change the status of invoice items and view top selling grossing merchants. Merchants can only view their items and invoices. Admins have more access to database information. An additional feature was added to this project which allows merchants to create discounts. The discounts have a percentage and a quantity threshold and can be applied to invoice items.

Tech Stack: Ruby On Rails, PostgreSQL, RSpec, ActiveRecord, SQL

WORK EXPERIENCE

OWNER/OPERATOR
Eldorado Tree Care | Oct 2018 - April 2021

- Delivered exceptional service to each customer, encouraging repeat customers, positive feedback, and long term loyalty
- Trim trees/shrubs to ensure health and longevity
- Perform work for customers to meet expectations and deadlines

ARBORIST
Mountain Tree Care | Mar 2015 - Oct 2018

- Provided exception customer service to ensure customer satisfaction
- Fire mitigation
- Trim/Remove trees using a variety of different equipment
